Abbreviated logos

Abbreviated logos are for limited use only, primarily when these conditions are present:

- Space or reproduction considerations make it difficult to incorporate the Primary version of the logo; such as when creating branded merchandise (pens, key chains, lapel pin, etc.)
- The Communication will be directed to **audiences already familiar with WSU** (local/regional), who will recognize the university's academic mark.

Clear Space

Per the Brand guidelines please make sure you allow for clear space around the logo.

- The logo must be surrounded by clear space to separate it distinctly from any other graphic elements, preserving its integrity and impact.
- Clear space should be the height of a lower case letter n.
